and you've decided to start a blog about your industry. You've seen those big bloggers doing amazing things with their blogs and decided that you could be just as good if you tried. But wait, before you start creating content for your new blog you need to figure out how you are going to make money. You will need to figure out how you are going to monetize your blog. And that means you need to understand Google AdSense, right? Wrong. Monetizing your blog isn't all about Google AdSense. There are many other ways to monetize a blog. For example: Using a non-hosted blog like WordPress.com Using a hosted solution like Blogger or WordPress.org Selling products on Amazon or Etsy Using a Amazon affiliate link Using a Facebook ad As you can see you don't need to use Google AdSense or any other Google service to monetize a blog. If you are not familiar with how to monetize a blog then you should definitely read this post. It will help you get started. In this tutorial we will focus on using Amazon affiliate links to monetize a blog. What is an Amazon affiliate link? An Amazon affiliate link is a link that leads to Amazon.com, which 82157476af
